EXPANDING LIFE

Nanobiotix to Present First Survival Data From Priority Head and Neck Cancer Program Among Five Presentations at the 2021 Annual Meeting of the American Society for Radiation Oncology

October 6, 2021

- Poster presentation by Pr. Christophe Le Tourneau featuring first OS and PFS data from phase I expansion study of NBTXR3 as a single agent activated by radiotherapy in tough-to-treat HNSCC population
- Oral presentation by Dr. Tanguy Y. Seiwert with comprehensive review of local and systemic potential effects of NBTXR3 as a single agent activated by radiotherapy and combination agent with anti-PD-1
- Oral presentation by Dr. Sylvie Bonvalot with additional follow up from phase II/III STS study
- Additional poster presentations on phase I immunotherapy study and preclinical evaluation of NBTXR3 in immunotherapy

Paris, France; Cambridge, Massachusetts (USA); October 6, 2021 – [NANOBIOTIX](#) (Euronext: NANO – NASDAQ: NBTX – the “**Company**”), a late-stage clinical biotechnology company pioneering physics-based approaches to expand treatment possibilities for patients with cancer, today announced two oral presentations and three poster presentations at the 2021 Annual Meeting of the American Society for Radiation Oncology (ASTRO). The meeting will be held from October 24-27, 2021.

“Bringing disruptive therapeutic solutions that expand treatment possibilities for patients with cancer starts with making a meaningful impact on survival,” said Laurent Levy, co-founder and chairman of the executive board of Nanobiotix. “Delivering the first look at these exploratory endpoints in our phase I head and neck cancer study will provide useful insight into the potential of our innovation in our priority indication as we prepare to launch our global phase III. While we continue to develop NBTXR3 as a broadly applicable potential therapy across solid tumor types and therapeutic combinations in parallel, we also look forward to presenting updates in immunotherapy and soft tissue sarcoma as well.”

Oral and Poster Presentation Details:

Local Control with NBTXR3 as a Single-Agent for Patients with Head and Neck Cancer

- Poster presentation #2805: *Phase I Study of Novel Radioenhancer NBTXR3 Activated by Radiotherapy in Cisplatin-Ineligible Locally Advanced HNSCC Patients* by Christophe Le Tourneau, MD, PhD, on October 26 at 1:15 PM CDT / 8:15 PM CET

NBTXR3 Tumor-Agnostic, Therapeutic Combination-Agnostic Development Potential

- Oral presentation #132: *Overcoming Resistance to Anti-PD-1 With Tumor Agnostic NBTXR3: From Bench to Bedside* by Tanguy Y. Seiwert, MD, on October 26 at 4:20 PM CDT / 11:20 PM CET

Priming Immune Response with NBTXR3 plus Anti-PD-1 in Advanced Cancers

- Poster presentation #2739: *NBTXR3 Activated by Radiotherapy in Combination with Nivolumab or Pembrolizumab in Patients with Advanced Cancers: A Phase I Trial* by Colette Shen, MD, PhD, on October 25 at 4:00 PM CDT / 11:00 PM CET

Local Control with NBTXR3 as a Single-Agent for Patients with Soft Tissue Sarcoma

- Oral presentation #77: *Study of Novel Radioenhancer NBTXR3 Plus Radiotherapy in Patients with Locally Advanced Soft Tissue Sarcoma: Results of the Long-Term Evaluation in the Phase II/III Act.In.Sarc Trial* by Sylvie Bonvalot, MD, PhD, on October 26 at 5:15 PM CDT / 12:15 AM CET

Preclinical Data on NBTXR3 plus Anti-PD-1 in Lung Cancer Model

- Poster presentation #2865: *NBTXR3 Nanoparticle with ImmunoRadiation Might Reshape Metastatic Tumor-Infiltrating T Cell Repertoire in Murine Lung Cancer Model* by Chike O. Abana, MD, PhD, on October 26 3:30 PM CDT / 10:30 PM CET

About NANOBIOTIX

Nanobiotix is a late-stage clinical biotechnology company pioneering disruptive, physics-based therapeutic approaches to revolutionize treatment outcomes for millions of patients; supported by people committed to making a difference for humanity. The company's philosophy is rooted in the concept of pushing past the boundaries of what is known to expand possibilities for human life.

Incorporated in 2003, Nanobiotix is headquartered in Paris, France. The company also has subsidiaries in Cambridge, Massachusetts (United States), France, Spain, Germany and Switzerland.

Nanobiotix has been listed on the regulated market of Euronext in Paris since 2012 and on the Nasdaq Global Select Market in New York City since December 2020.

Nanobiotix is the owner of more than 30 umbrella patents associated with three (3) nanotechnology platforms with applications in 1) oncology; 2) bioavailability and biodistribution; and 3) disorders of the central nervous system. The company's resources are primarily devoted to the development of its lead product candidate— NBTXR3 —which is the product of its proprietary oncology platform and has already achieved market authorization in Europe for the treatment of patients with soft tissue sarcoma under the brand name Hensify®.
