The aggregate gross proceeds are expected to be approximately \$98.6 million, equivalent to approximately €81.3 million, before deduction of underwriting commissions and estimated expenses payable by the Company. The Global Offering is expected to close on December 15, 2020, subject to the satisfaction of customary closing conditions.

All the securities sold in the Global Offering will be issued by the Company. The ADSs have been approved for listing on the Nasdaq Global Select Market and are expected to begin trading on December 11, 2020 under the ticker symbol “**NBTX.**” The Company’s ordinary shares are listed on the regulated market of Euronext Paris under the ticker symbol “**NANO.**”

Jefferies LLC is acting as global coordinator and joint book-running manager for the Global Offering, and Evercore Group, L.L.C. and UBS Securities LLC are acting as joint book-running managers for the U.S. Offering. Gilbert Dupont is acting as manager for the European Offering (together, the “**Underwriters**”).

Type of Offering

The New Shares will be issued through a capital increase without shareholders’ preferential subscription rights by way of a public offering and under the provisions of Article L.225-136 of the French Commercial Code (*Code de commerce*) and pursuant to the 2nd and 7th resolutions of the Company’s extraordinary general shareholders’ meeting held on November 30, 2020.

The offering price per New Share in euros is equal to the volume weighted average price of the Company’s ordinary shares on the regulated market of Euronext in Paris over the last three trading days preceding the start of the offering (i.e., December 7, 8 and 9, 2020), minus a discount of 9.80%, and has been determined by the Company pursuant to the 2nd resolution of the Company’s extraordinary general shareholders’ meeting held on November 30, 2020.

Option to Purchase Additional Shares

The Company has granted the Underwriters an option to purchase (the “**Underwriters’ Option**”), for a 30-day period (until January 9, 2021), up to 1,095,000 additional ADSs, which represents 15% of the aggregate amount of the New Shares to be issued in the Global Offering, at the same offering price.

Stabilization

In connection with the Global Offering, Jefferies LLC, acting as stabilization agent, may over-allot the securities or effect transactions with a view to supporting, stabilizing, or maintaining the market price of the securities at a level higher than which might otherwise prevail in the open market. However, there is no assurance that the stabilization agent will take any stabilization action and, if begun, may be ended at any time without prior notice. Any stabilization action or over-allotment shall be carried out in accordance with all applicable rules and regulations and may be undertaken on the regulated market of Euronext in Paris and on the Nasdaq Global Select Market.

Dilution

The 7,300,000 New Shares to be issued in the Global Offering (5,445,000 of which are ordinary shares represented by ADSs) will result in a dilution of approximately 28% of the Company's outstanding share capital on a non-diluted basis excluding the exercise of the Underwriters’ Option, and approximately 32% of the Company’s outstanding share capital on a non-diluted basis, in the case of a full exercise of the Underwriters’ Option.

Estimated Proceeds from the Global Offering

The gross proceeds of the issuance of the New Shares are expected to be approximately \$98.6 million (€81.3 million), assuming no exercise of the Underwriters’ Option.

The Company estimates that the net proceeds of the Global Offering will be approximately \$86.7 million (€71.5 million), after deducting approximately \$6.9 million (€5.7 million) in underwriting commissions and approximately \$5.0 million (€4.1 million) in estimated offering expenses.

The Company expects to use the net proceeds from the Global Offering to advance the overall development of NBTXR3, prioritizing the treatment of locally advanced head and neck cancers, as follows (assuming an exchange rate of €1.00 = \$1.2115, the exchange rate on December 10, 2020):

- approximately \$48.5 million (€40 million) to advance its clinical trial of NBTXR3 in the United States and Europe for the treatment of locally advanced head and neck cancers through an interim analysis of efficacy data,
- approximately \$18.2 million (€15 million) to advance the development of its other clinical and pre-clinical programs, and
- the remainder for working capital funding and other general corporate purposes.

As of September 30, 2020, the Company had cash and cash equivalents of €42.4 million (non audited). The Company believes that the net proceeds from the Global Offering, together with its cash and cash equivalents, will be sufficient to fund its operations through the first quarter of 2023.
